

26 May 1955

MEMORANDUM FOR: The Record

SUBJECT : DCID - Proposed No. 3/6

25X1A9A

25X1A9A

1. [] Executive, OSI, and [] OSI, requested comments regarding the proposed regulation and the propriety of issuing it as a DCID rather than a NSCID.

2. The Directive is designed to establish a Guided Missile Intelligence Committee composed of representatives from this Agency, State, Army, Navy, Air Force, Joint Staff, AEC, FBI and NSA. The draft, indicating the responsibilities of the Committee, is attached hereto.

3. In the opinion of this office, it would seem not only appropriate but desirable to have the Directive issued by the DCI rather than the NSC. NSCID No. 3, paragraph 3 provides in part: "For the purposes of intelligence production, the following division of interest, subject to refinement through a continuous program of coordination by the Director of Central Intelligence, shall serve as a general delineation of dominant interest." Such delineation is specified in more detail in DCID No. 3/4 to which the proposed Directive is a logical amendment.

4. Our conclusion was given to [] by telephone 24 May 1955.
